

Amadeus Fare World price tests

Tests were conducted using a travel agency Office Id in September 2010 by Amadeus staff with airline reservations training.

The tests compared like for like dates and routings with the fares from the two major consolidators (Gold Medal Travel and Travel 2 via their trade websites) and the rates available through the various consolidators participating in Amadeus Fare World. Only economy class fares were checked for the purposes of this test.

All fares used London as the departure point. Outbound flight dates were 21/10/10, 15/12/10, 7/3/11, 3/4/11

Cheapest price found in the majority of cases (e.g. 3 out of the 4 travel dates) is calculated as a win for the respective consolidator or Fare World. Where the results were split (e.g. 2 for one consolidator or Fare World and 2 for another) the results are shown as a tie.

Maximum savings compared to the most expensive rival consolidator are also shown.

Please note Fare World searches consolidator and published fares which means the lowest fare can be either type.
