Customer Solutions

Partnership

Over the years we have become much more than just business partners with Amadeus. This special partnership is a key part of our successful business, helping us to develop and improve our customers' service every day. Happy customers create confidence in our organisation and help us move in the right direction. In our business customer trust is very important and we are very happy that our customers trust us thanks to our long term partnership with Amadeus. We exist because of you!

What we value most about our Amadeus experience are the solutions and know-how they provide, which guarantee us a secure and rewarding relationship with our customers. Amadeus delivers effective data management and provides us with clear answers to manage our day-to-day decisions and strategy. Our leading position in Lithuania very much depends on our partnership with Amadeus.

Amadeus people are professional and skilful, always able to deliver high quality service. Their competence never leaves us in any doubt.
