

## Passenger Lists by Office (LPO)

### With Immediate effect

Amadeus is pleased to announce that the **Amadeus Passenger Lists by Office** product has been re-worked and enriched with new functionality. A new entry is opened for you, **LPO**. As per today, it covers all the current capabilities of the LMB entry, except the search by auxiliary segments. It also does not return PNRs that only contains non-air segments, as well as PNRs with no active segments.

LMB is still available for all markets to allow you to smoothly adapt to the new LPO entry.  
**LMB will be withdrawn from the system on the 30<sup>th</sup> September 2009.**

### References

- ⇒ **HE LPO**. The details of the entry is not described in this announcement, you can refer to those help pages for this purpose.
