

Amadeus Individual PNR Security - Amadeus ES Read & Ticket

Read & Ticket is a new **ES element** option which will allow giving access to PNRs to any Amadeus agent for ticketing purpose only, with no risk for the original booking to be modified.

ES Read & Ticket gives limited rights to the receiver of the PNR.

The receiver will be able to retrieve the PNR, price it and ticket it, eventually add remarks, but will **not be able to:**

- Change or suppress a passenger names
- Add / Rebook / Cancel a flight segments
- Add / Modify / Delete contact elements
- Split PNR
