

Amadeus Ticketless Access

Selling Low Cost Carrier seats and services made easy

Distribution & Content

Amadeus Ticketless Access lets Travel Management Companies and traditional travel agencies sell Low Cost Carrier seats and services in a simpler, faster and more effective way. Now you can boost your productivity thanks to the direct access to Low Cost Carrier inventory and full integration with your existing sales and reservation flow. Take advantage of the best available integration of Low Cost Carrier content in a Global Distribution System to offer your clients a better choice and make your work easier.

Your clients have asked for it...

Seeking to reduce costs, many businesses today have added Low Cost Carriers to their travel policies and leisure travel has grown explosively with the availability of Low Cost Carrier flights. Amadeus Ticketless Access helps you address this growing demand by integrating Low Cost Carrier seats and services in a single display with all other available offerings.

Delight them with unsurpassed service

Amadeus Ticketless Access often exceeds the level of service airlines can offer via their consumer websites. For example, the PNR Modification feature allows you to rebook Low Cost Carrier itineraries, cancel segments and even change the passenger name directly in the system. You can also add special service requests, such as excess baggage or speedy boarding.

Everything you need in one place

Amadeus Ticketless Access brings together all the functions you need to efficiently deliver Low Cost Carrier offerings to your clients. It lets you consult schedules, fare rules and pricing; manage mandatory PNR elements and end of transaction; check reservation status; and much more.

Your key Amadeus Ticketless Access benefits

- > A single source of information - no need to go to multiple Low Cost Carrier websites
- > Full integration into standard Amadeus workflows increases your productivity
- > Real-time fares and availability
- > Access to all fares for each of the Low Cost Carriers available
- > Neutral Availability Display showing all available offers
- > Chargeable SSRs (ancillary services) increase travel value and diversify your offering
- > PNR Modification guarantees travel flexibility
- > Competitive advantage: meet growing demand as Low Cost Carriers expand their market share

Selling Low Cost Carrier offerings has never been easier

A full Low Cost Carrier booking process integrates seamlessly with your existing workflow. Flights are included in the familiar Amadeus principal displays. A secondary display shows the last seat availability and associated fares. Mid and Back Office reporting and accounting processes are also fully integrated and use the standard Amadeus Interface Record.
