Better solutions

Amadeus' technology solutions are designed to meet the unique needs of a diverse customer base. Our solutions not only deliver a better experience; they radically improve a client's performance.

Global citizens

At Amadeus, we are keenly aware that our contribution to the world extends far beyond commercial advancement. Our Travel Further corporate social responsibility program underscores our commitment to social development, our concern for the environment and the professional values that govern our employees.

Amadeus North America partners with our employees to host outreach initiatives that support a multitude of local charitable causes. We also recognize that as an industry leader and global corporate citizen, giving back beyond our local borders is the right thing to do. That's why we've joined forces with the Great Commission Alliance (GCA) to build an orphanage in Mirebalais, Haiti, to house and sustain up to 100 children.
